Note: The numbers in the sample to which the estimates in this table relate are given in table 124 for weekly earnings and table 125 for hourly earnings. The corresponding averages (means) of hourly earnings are given in tables 10 and 11 (for males and females respectively), published in *New Earnings Survey 1976, Part A*. The corresponding averages (means) of weekly earnings can be derived from these tables, by subtracting average overtime earnings from average gross earnings.
